### **DETAILED ACTION**

#### Election/Restrictions

1. Applicant's election with traverse of Species II illustrated in Figure 3 in the reply filed on 11/03/2005 is acknowledged. The traversal is on the ground(s) that a substantially coextensive search is associated with the elected species. This is not found persuasive because Species I, Species II, Species III, and Species IV are independent and distinct as claimed. Thus the subject matter is divergent and the state of the art is substantially dissimilar.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 2 and 5-6 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 11/03/2005.

# Priority

3. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. JPN 2002-232162 on 08/08/2002, JPN 2002-355909 on 12/06/2002, and JPN 2003-156012 filed on 05/30/2003.

#### Information Disclosure Statement

4. The information disclosure statements (IDS) submitted on 08/06/2003 and 01/13/2004 is/are acknowledged. The submission is in compliance with the provisions

Application/Control Number: 10/634,845

Art Unit: 3736

of 37 CFR 1.97 and 1.98. Accordingly, the examiner is considering the information disclosure statement.

## Specification

5. The abstract of the disclosure is objected to because it exceeds 150 words. It is noted "Disclosure" in the heading of the Abstract is misspelled. Correction is required. See MPEP § 608.01(b).

# Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 7. Claims 1, 3 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Palermo et al (5769796). Palermo discloses a guidewire 140 comprising a first relatively stiff proximal wire member 142 (column 4 lines 26-31), a second relatively flexible distal wire member 146 with an elastic modulus larger than that of said first wire member (column 4 lines 26-31), a welded region 177 joining said first and second wire members (column 7 lines 64 67 to column 8 lines 1-4), and a cover layer 179, 204 configured to cover at least said welded region (column 8 lines 31-37).
- 8. For claims 3 and 4, Palermo additionally discloses a distal cover layer 206 comprised of a different material than said cover layer wherein said cover layer 179, 204 is formed, for example by dipping or spraying (column 14, lines 34-40), without heating said guidewire and furthermore wherein said distal-cover layer 206 is formed in

Art Unit: 3736

such a manner that said guidewire is heated, for example by heat shrinking the polymer tubing (column 12 lines 36-37).

### Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey G. Hoekstra whose telephone number is (571)272-7232. The examiner can normally be reached on Monday through Friday, 8:00 a.m. to 5:00 p.m. EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Max F. Hindenburg can be reached on (571)272-4726. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
